Version history

All the documents share one version: v1.1, October 2026 · generated by cubi2.py · 2026-10-31 15:28
All data come from tests and many real builds, not only from theory.

Versions (newest first)

Version	Date	What changed
1.1	October 2026	Start-up Guide - Bring Cubi to Life (programs, settings, first balance). CAN wire colours as printed on the drivers.
1.0	September 2026	First release: lists, inserts, boards, magnets, wiring, assembly and printing guides.

The documents

Document	What it is
