Version history

All the documents share one version: v1.2, November 2026

Versions (newest first)

version	date	what changed
1.2	November 2026	Clear print for every reader: text at 14 pt (nothing under 12 pt), tagged PDF for screen readers, a text alternative for every picture, steps called by name, the app from GitHub.
1.1	October 2026	Start-up Guide - Bring Cubi to Life (programs, settings, first balance). CAN wire colors as printed on the drivers.
1.0	September 2026	First release: lists, inserts, boards, magnets, wiring, assembly and printing guides.

The documents

document	what it is
